## A SHORT HISTORY:

Scholars have long debated whence came the people and name Graham. Some say the Grahams are descendants of the Graeme who commanded the armies of Fergus II in 404 AD. Others are equally convinced that they are of Norman descent, while yet others claim a Flemish or even Danish descent. Which are correct? For a complete examination of the subject, read "Theories on the Origins of the Grahams" by Nellie Graham Lowry, Society Genealogist, at
